**Here to help your business**

**ESG | Net Zero | Sustainability | Utility Management**

## We are Inteb.

A talented team of energy managers, surveyors, utility and environmental specialists, supporting UK businesses to reduce carbon emissions, optimise energy costs, and meet regulatory obligations.

Helping your business improve sustainability, reduce carbon, and stay compliant.

Manager

## Our accreditations

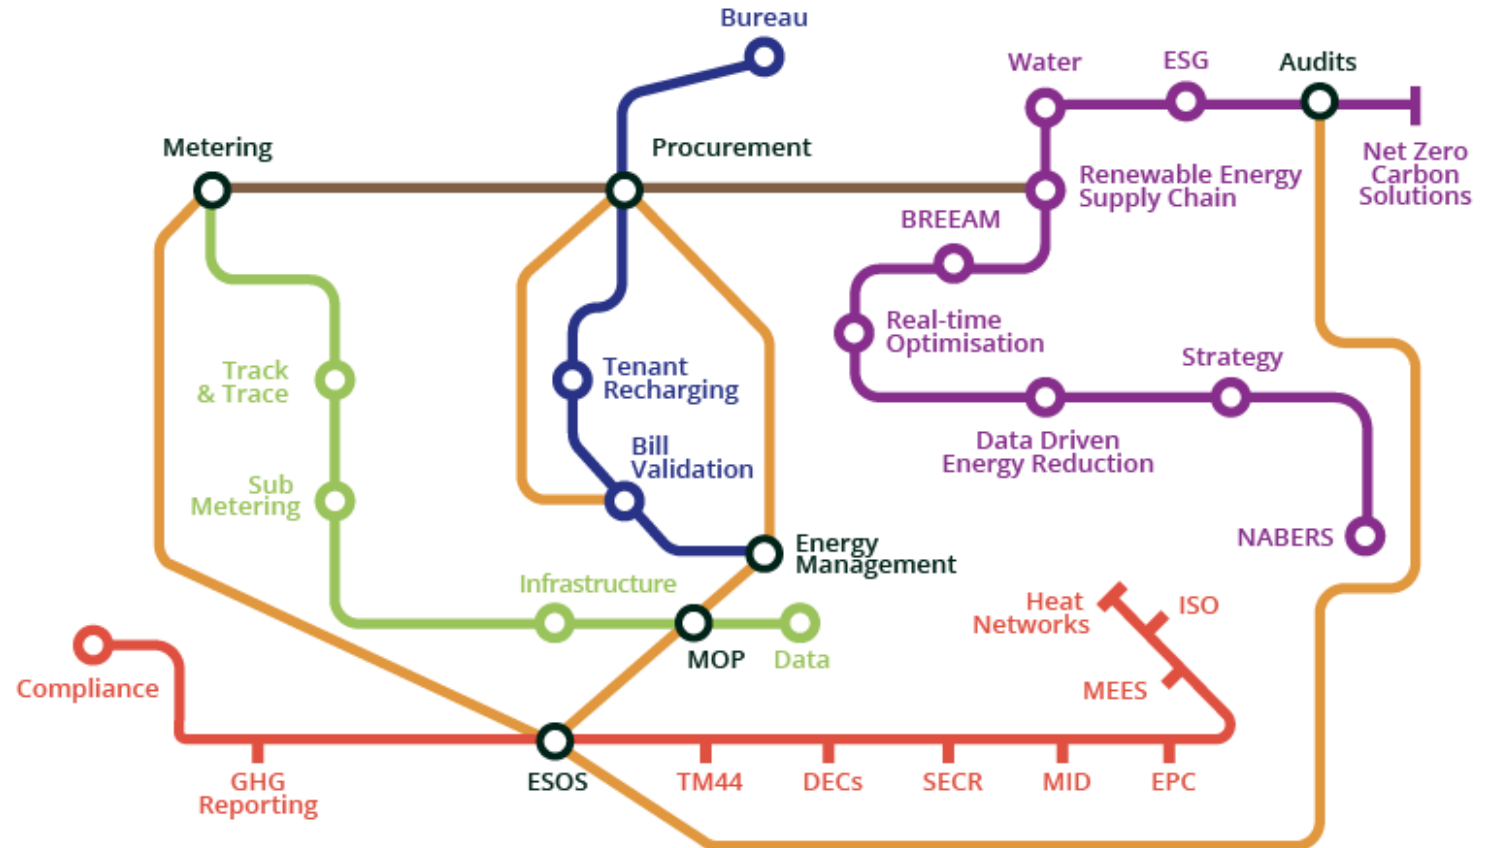

What would you like to achieve?

## Our services

Whether you're looking to implement ESG standards and targets, commit to a net-zero future, or simply become more energy efficient, we can define your vision and put the necessary building blocks in place!

**Our clients emerge with greater operational and financial resilience long term, enhanced reputation internally and externally, and most importantly play a key part in tackling the climate crisis!**

**Don't just take our word for it..**

*“We have previously worked with a number of brokers prior to Inteb, but since working with Inteb it is fair to say we now see the value in partnering with a sustainability consultancy over a broker. Inteb are true professionals, sector experts and have a strong passion to deliver value-led working relationships”*

Achieve your energy and carbon goals

## Meet your energy and carbon targets

Inteb will help you build a commercial strategy and business case to move towards net zero, provide guidance on the best renewable solutions for your business, and provide proactive maintenance and monitoring to help ensure the long-term success of your renewable energy systems.

**Our energy experts will help you to...**

**Build a sustainable economic model for your business**

**Secure your future energy needs from renewable sources**

**Impress stakeholders and create positive marketing opportunities**

**Identify sustainability opportunities**

Don't just take our word for it..

*“What sets Inteb apart from others is their intricate knowledge of real estate and asset management, together with their experience to balance investment goals with the physical realities of what is achievable with each site”*

## Improve energy efficiency and reduce costs

Our energy experts take a holistic approach, helping you develop realistic energy policies and the action plan needed to achieve them. These include sustainable energy procurement, physical building upgrades, detailed data analytics, and more.

**Our energy experts will help you to...**

**Identify energy upgrade projects with a fast ROI**

**Spread risk by purchasing energy when prices fall**

**Switch to 100% renewable energy**

**Protect your business from volatile energy market fluctuations**

**Don't just take our word for it..**

**Investment  
Managers**

*“Our work with Inteb on the UK Energy Management Portfolio shows that sustainability can add tremendous value to existing buildings and for their owners and occupiers. We have achieved our initial aim of reducing energy consumption while achieving cost savings in the service charge.”*

A man in a dark suit and white shirt is shown in profile, talking on a black telephone. He is looking towards the right. In the background, another person is partially visible, and there is a window with bright light. The overall tone is professional and business-oriented.

Accurately measure energy usage

## **Control your company's energy performance**

Keep your finger on the pulse with our range of auditing, bureau, and on-site services. Support empowered decision making, confident forecasting, and the identification of low-cost “quick wins”.

**Our energy experts will help you to...**

**Accurate, clear, and reliable data that supports confident decision making**

**Detect avoidable energy waste that would otherwise remain hidden**

**Real-time detail on your carbon and energy consumption**

**Accurately measure energy usage down to equipment level to identify quick savings**

**Don't just take our word for it..**

*"We have worked with Inteb for a number of years and in short, couldn't live without them. As true sustainability consultants, they have supported us with a broad range of services and always deliver on their promises. Transparent and a pleasure to work with"*

## Ensure your compliance

Our compliance experts, energy assessors, and surveyors work behind-the-scenes to ensure you are fully certified and compliant with all relevant legislation and best practice energy management guidelines.

**Our energy experts will help you to...**

**Maintain competitive advantage, protect your reputation and build value**

**Manage your portfolios' energy performance through our intuitive online dashboard**

**Maximise asset value through compliance with efficiency-related certifications and legislation**

**Energy saving building upgrades, supporting compliance with net zero requirements**

**Don't just take our word for it..**

*“Inteb are a much-valued extension to our team,  
providing expertise in all areas of utilities. Transparent,  
honest and do what they say – rare to find!”*
